

IT'S NOT A GOLF CAR.

IT'S A *Club Car*

CAN A GOLF CAR REALLY DO THAT?

Innovating superior golf experiences.

There will always be those who argue that golf cars are a commodity. At Club Car® we let our decades of innovation do the talking for us. And we invite those considering their next fleet purchase to consider this: After a hello from the pro and a wave from the starter, it's the golf car that spends the next four hours with your customer. Isn't that an opportunity worth exploring?

Our team wondered, can we deepen the golfer's enjoyment? Can we expand the owner's profit opportunities? Can we make the

superintendent's life easier? We found the answers in technology. Called Guardian SVC™ and the Visage™ Mobile Golf Information System, these advancements integrate into Club Car Precedent vehicles, and change the game for everyone—golfer, owner, superintendent, tournament director, food and beverage manager, maintenance staff.

It's a new era, where expectations for service and return on investment have never been higher. That's why thinking "golf car" just doesn't cut it anymore. Not when Club Car offers so much more.

Precedent. Keeping the standard set where it should be.

The gold standard in dependable performance, advanced engineering and refinement, Precedent has, since its debut, reigned as golf's premier player-focused vehicle. Our two models—the i2 and i2L—are powered by the Excel™ Drive System and offer customized programming, enhanced efficiencies and greater vehicle control that distinguishes a round in a Precedent from any other golf car out there. The Visage™ Mobile Golf Information System provides golfers an assortment of options that make every round more enjoyable. Add to that Guardian SVC™—the only fleet management tool of its kind that protects your course and golf cars, and you'll find yourself wondering, "Can a golf car really do that?" The answer is, yes if it's a Club Car™.

ViSAGE Touch & Go to the Next Level

Familiar touch screen technology powers the Visage system, so there's zero learning curve. Golfers easily navigate through menus to access the information and service features they want. The system is fully customizable to your course and community. The display unit is robustly built with a high visibility screen (even in bright sunlight); it's water-tight and completely weatherproof.

PRECEDENT i2L

For the course that makes no compromises when it comes to customer satisfaction, the Precedent i2L stands alone. Obsessed with user comfort and an unequalled golf experience, the i2L offers multiple customizable options as well as Club Car's® premier design and ergonomic features and optimum power plant configurations. Among them:

PRECEDENT

The Precedent i2L comes standard with all features of the Precedent i2, plus:

- Available in either 48-volt electric powered by six 8-volt batteries or 11.5 hp Kawasaki gas engine
- 10-inch aluminum rims
- Soft-grip steering wheel
- Custom logo options on front cowl and accent striping
- Tinted, winged and hinged windshield
- Canopy storage net
- Choice of four standard or four premium colors
- Choice of driver-side and passenger-side accessory
- Choice of premium bag protector (standard) or single-point watering system
- Number Decals

PRECEDENT i2

Still turning heads when it comes to making an impression in front of the clubhouse, the Precedent still stands out with distinctive styling and reliable performance. Add to that all the features you've come to expect from Club Car® and the decision is obvious.

PRECEDENT

- Rustproof, aluminum chassis
- Available in either 48-volt electric powered by six 8-volt batteries or 11.5 hp Kawasaki gas engine
- 360° wraparound bumper combines with 5 mph front-and-rear-impact bumpers to help protect the car's frame and body from damage
- Molded-in color gives the car's body panels a deep, rich appearance that lasts season after season
- Monsoon Top with built-in drain spouts channels water away from golfers, their clubs and the sweater basket
- Ergo seats—redesigned for a better fit—provide comfort and stability throughout the round
- Redesigned dash and expanded storage make it easy to store and locate personal items. Canopy net also available
- Spacious bagwell with center divider and textured bottom surface
- Internal canopy handles increase comfort and assurance for the driver and passenger
- Flexible cup holders hold a range of cup sizes

DS

After 30 years of exceeding the expectations of golfers and course owners worldwide, the DS has earned the distinction "legend." The DS electric model is powered by Club Car's exclusive IQ System, which allows you to choose performance settings—speed, braking, acceleration, etc.—to complement course conditions. Additionally, the DS features:

- Self-adjusting rack & pinion steering
- 17'6" clearance circle
- Canopy Top
- Secure dual bag holder
- Premium tread tires
- Choice of three standard colors: Beige, White, or Green
